

INT. CUBICLE FARM (2016) - DAY/NIGHT

HEAD OF DIGITAL
But dammit Sebastian, you're the
best we have. You've programmed
half of the Internet.

SEBASTIAN
(cocky smirk)
Yeah, the good half.

HEAD OF DIGITAL
You're the only one who can stop
North Korea, they've hacked
everything.

SEBASTIAN
And how is this my battle? The only
people I care about are virtual,
and myself of course.

Tell you what: I'll flip a byte.
Ones and zeros are the only true
logic in this crazy world...

SEBASTIAN flips a byte, the outcome is unclear.

SEBASTIAN (CONT'D)
I guess it's war time.

CUT TO:

INT. SEBASTIAN'S CUBICLE - DAY/NIGHT

Sound of mouse clicks and keyboard tapping.

SEBASTIAN
Hm.

One and a half more hours of this.

SEBASTIAN (CONT'D)
OK finished.

SEBASTIAN takes off his UV, anti-glare glasses.

SEBASTIAN (CONT'D)
I guess you could say I pressed
Ctrl+Alt+Del on this war.

FADE TO BLACK.
